Serving the Holloman Air Force Base community

Wednesday, July 2, 2003

# AF considers new look

Air Force officials are considering an Air Force-distinctive uniform to replace the current battle dress uniform, according to service officials.

A fit and wear test of the uniform is pending, officials said. The test will determine the best direction to respond to Air Force needs for a 21st century utility uniform.

Many new Air Force uniforms and uniform items are fit or wear tested in the field before becoming available.

This wear test usually lasts between six months to

one year, but can be extended based upon the complexity of the uniform and feedback from the wear testers, officials explained. Positive and negative feedback is collected to ensure necessary improvements are made to the uniform or item before any decision is made to adopt it or not.

At the conclusion of the wear test, Air Force leaders will review the feedback and input from testers and a decision will be made to implement all, some or none of the test uniform. (*AFPN*)

## New sled driver takes reins at test squadron

**by 1Lt. Heather Newcomb**  
*49th Fighter Wing Public Affairs*

A new commander rides the lead sled at Holloman's High Speed Test Track, after the 846th Change of Command June 27.

After two years of hypersonic upgrade shots and pushing the envelope of test, Lt. Col. James Jolliffe hands over his sled and leaves for Wright Patterson Air Force Base, Ohio where he will manage the integration of the Global Hawk Unmanned Aerial Vehicle. Taking the keys from Jolliffe is Lt. Col. Russell Kurtz.

Jolliffe said he has seen some amazing additions since first arriving at Holloman. Since taking command, the team has increased hypersonic sled production, improved survey equipment, and developed new facilities for the sled launch team.

They were honored with several awards, including Air Force Materiel Command Chief Engineer and Support awards and Team Eglin awards in both civilian and military categories.

"Our most important recognition, I think, is the Squadron of the Year Award for 2002," Jolliffe said. "It recognized the team spirit, professionalism, and leadership of the people at all levels, and the selflessness required to make a difference."

Presiding over the ceremony was Col. Joseph Zeis Jr., 46th

Test Group commander. Zeis said the men and women of the test track have pushed the envelope and taken technology to new heights. Among those new heights is the hypersonic upgrade to 9,465 feet per second.

"In many ways, this track and the 846th TS have led the way into the 21st century," Zeis said. "Thanks to the outstanding leadership of Jim Jolliffe over the past two years, I have the greatest confidence in the capabilities of the 846th Test Squadron. I could not be prouder of their achievements, their abilities, their image and their future."

Zeis said he knows the squadron will stand ready to serve the Air Force in bold new areas of test and evaluation under the leadership of Kurtz.

"We have an incredible mission," said Kurtz. "As a little kid I used to dream about this. I had a huge rocket collection and every week when I got my allowance I would buy a new rocket."

"Now we design, build and launch rocket sleds in order to meet our customer's requirements," he said.

Kurtz attributed the successful mission and bright future of the team to its members.

"You are not only world record holders, but you are world class," said Kurtz. "I look forward to an exciting and challenging two years."

# cVIP speeds up civilian job application process

New and current civilian employees inprocessing or assigned to new positions in the Air Force can now go on-line to fill out many of the employment forms.

Applicants who have been contacted with a tentative job offer can use the web-based Civilian Virtual Inprocessing procedure to fill out forms prior to, or instead of going to their civilian personnel flight, said Maureen Weber, lead human resources specialist from the directorate of civilian personnel operations here.

"One of the most attractive features

of cVIP is that it saves the customer time by capturing repetitive type information the employee enters on one form, such as name and social security number, and inputting the data automatically on other forms as they are filled out," said Weber.

The cVIP also allows for electronic authentication for signatures, certification, and approvals. More information on Air Force civilian employment is at: <https://www.afpc.randolph.af.mil/afjobs/>. All 83 CPFs serviced by the Air Force Personnel Center are now using cVIP.

More than 4,000 people are killed each year in accidental fires. Tens of thousands more are injured, and damage to property is in the billions of dollars.

At Holloman, the risk of injury from an accidental fire is always present, especially in the hot and dry 101+ critical days of summer.

"The problem comes primarily from dry vegetation," said Harvey Stevens, 49th Civil Engineer Fire Prevention assistant chief. "It doesn't take much to start a fire."

A main cause of fires during the summer is barbecues, said Robert Moffitt, 49th CE Fire Prevention chief fire inspector. Grills should only be used outdoors, not inside garages or below overhangs. Trapped heat can cause a fire.

No matter where a person barbecues, both coal and gas grills can be a fire risk, Moffitt said.

"People who barbecue with coals may think the fire is out and throw them in the trash," he said. "Just that little bit of heat will start a fire."

To be safe, after the cookout charcoal should be doused with water, Moffitt said. Water should not only be used after cooking, but a garden hose should be kept near the grill so a fire can be put out at any time.

Even if the fire is put out, the fire department should be called immediately. They will check the area to make sure it is safe.

Children can also accidentally cause a fire by playing with matches, Stevens said.

"Youngsters are curious," he said. "They see mom and dad do it and say, 'I can do that too'."

Children should be taught that lighters and matches are not toys, Moffitt said.

In a recent incident, kids playing with fire burned down a fence, Stevens said. The damage totaled \$2100, and if the wind had been blowing the opposite direction, the children would have been trapped and possibly injured.

Indoor fires are also a threat during the 101+ critical days of summer.

Don't overload power outlets or lay extension cords over heaters, Moffitt said.

"Extension cords should be unrolled or all the heat builds up in one

area," Moffitt said. "They should be used temporarily, not for 20 years."

Putting cords under carpets and hanging them over nails is also dangerous, he said. This will inevitably break the wire and create a fire hazard. Once the wire is damaged, it should be replaced.

Although there are many ways for a fire to start, home fires are most commonly started in the kitchen. Stevens offers advice for safe cooking.

"Keep a lid right beside you while using the stove," Stevens said. "That's the best extinguisher you can have."

If a pan fire starts, slide the lid over it to stop the fire. Throwing water or flour on the fire can spread the flames. If a fire starts to spread, get out of the house and call the fire department from a safe distance, Stevens said.

The fire prevention team recommends having two escape plans. Children should practice and know their escape. Make sure smoke detectors are activated and the batteries are replaced twice a year.

"I would say the majority of things happen because people think it won't happen to them," Stevens said. "One in three people will have a fire, but everyone is saying it's not going to be me."

## On the side

Make sure your home is safe by conducting regular fire safety inspections. Some Home Safety Checks:

- Avoid pan fires in the kitchen by not overheating oils.
- Never leave a pot or pan unattended during cooking.
- Dryer lint is highly combustible, so keep the dryer filter clean at all times.
- Make sure furniture, curtains and bedding are located well away from heating devices and heater vents.
- Smoke alarms are required on each level of the house.
- Do not overload circuits because this can generate heat and start a fire.
- Never reach across a flaming pan to turn off the burner or elements. (Pot handles should be turned inwards or to the side to avoid spills or someone accidentally knocking the pot off the stove.)
- Never try to carry a burning pan outside.
- Make sure plugs fit tightly into the receptacles.

# 49 MXS airman earns top honors in ACC

**by Laura Pellegrino**  
*Sunburst staff writer*

---

A 49th Maintenance Squadron Airman recently won Air Combat Command's 2002 General Leo Marquez award for munitions person of the year.

Senior Airman Amanda Young, 49th MXS armament shift supervisor, said she was excited to win on the ACC level.

"I didn't think I would stand out," Young said. "I just do my job."

Young said her job involves maintaining the weapons equipment for the base's F-117s. Without their team, bombs would not function in training or combat.

This mission could not be completed without the other members of her team, she said.

"If I didn't have anyone else, nothing would run," Young said. "Everyone does their own part."

Staff Sgt. Travis Treat, 49th MXS armament maintenance NCOIC, said Young has earned the recognition.

"She is a top-notch performer and maintenance technician," he said. "She is always turning out superb maintenance and has dedicated off-duty time to continue her education and improve her skills."

Young was nominated for the award because of her superior performance and dedication to the Air Force, Treat said. While in Korea, she supervised an outing to a small Korean village to hand out candy and ice cream to children, which he says bolstered relations between America and Korea.

"The quality of her work is exceptional," Treat said. "She is my number one team leader. If the Armament Flight needs something done, Young is the supervisor to get it accomplished."

Young joined the Air Force in 2000 and hopes to make staff sergeant in the next four years.

"You should do your best and never settle for second best," Young said. "Always strive to do your job better."

# AEF Center launches improved AEF online

The Air and Space Expeditionary Force Center at Langley Air Force Base, Va. recently launched an improved version of their Web site, “AEF Online,” to help airmen learn more about the AEF and provide information about deployments.

“We’ve made the site more user-friendly and more pleasing to the eye. Our goal was to organize information to allow people to find what they need more easily and quickly,” said Maj. Beverly Nozolino, the chief of the AEF Center systems integration branch.

AEF Online continues to offer airmen links to many deployment locations, checklists and requirements.

“AEF Online helps airmen better prepare themselves for deployment,” Nozolino said. “They can also use the site to learn more about the AEF, including information about the AEF Center, points of contact and useful tools.”

Airmen will find more up-to-date information on the new site, she said.

“Based on feedback received from airmen across the total force, the AEF Center Web team not only improved the usability of the site; it also added more relevant information,” she said.

“The Web site is constantly evolving, seeking to incorporate contemporary and useful information regarding what airmen can expect when they deploy in support of current AEF operations,” Nozolino said. “As the AEF enters a post-Operation Iraqi Freedom transition phase, we think now is a good time to make sure airmen know where to go to get the latest news and information about the AEF and deployments.”

“The AEF is how the Air Force intends to conduct 21st-century warfighting — it’s here to stay,” said Brig. Gen. Anthony Przybyslowski, the commander of the AEF Center. “As the AEF continues to evolve, especially during very dynamic contingency operations like Operation Iraqi Freedom, getting the most current and relevant AEF information out to our airmen is a top AEF Center priority. Our newly revamped Web site, AEF Online, is intended to do just that. We encourage all airmen to visit the site and, if they have ideas on how to make it even better, don’t hesitate to let us know.”

Airmen can access AEF Online from any dot-mil computer at <https://aefcenter.acc.af.mil>. (AFPN)

## Joyride

**Michael Keeney 'test drives' a HUMVEE during a tour of the 49th Materiel Maintenance Group June 26. More than 12 children with the Youth and Teen Center's School Age Program toured BEAR base.**

## Holloman Hotline

572-7500

The Hotline is your direct link to the 49th Fighter Wing commander. If you've tried to solve the problem yourself and haven't been able to get results, call 572-7500 or e-mail [cc.hotline@holloman.af.mil](mailto:cc.hotline@holloman.af.mil). Leave your name and phone number so the office of primary concern can contact you. Before submitting a Hotline, please give the appropriate agencies a chance to work out the problem. If you want to pass on praise for a job well done, please contact the supervisor or commander directly who can provide the appropriate recognition to the individual or group. The unit commanders and agency chiefs want to help. Let them try first.

## Flying the flag

**Q:**

**Everyday I drive past the German headquarters building and I see their flag flying at the same height as ours. I always understood that a foreign country's flag is supposed to be flying lower than the American Flag.**

**A:**

Thank you for your call. By bringing this question to our attention, you actually brought to light an issue within our Air Force Instructions, which are now being corrected.

According to the Headquarters, Air Force Protocol, it's appropriate for flags to be flying at the same height, but none will fly higher than the flag of the United States. When flags of two or more nations are displayed, they are to be flown from separate staffs of the same height. The flags should also be equal in size, and international usage prescribes the display of the flag of one nation equal to that of another nation in time of peace.

Along with this, the flags will be displayed in a line, alphabetically, using the English alphabet, with the Flag of the United States at its own right, the observer's left.

It is important to keep in mind that our air bases overseas aren't required to fly the U.S. Flag lower than the host nations. In fact, it is never appropriate for the U.S. Flag to fly lower than any other national flag.

# Holloman Hero

## Airman 1st Class Shierlene Abueg

### 49th Fighter Wing

**Duty title:** Administration specialist

**Time in service:** 11 months

**Time at Holloman:** Seven months

**Hometown:** Arlington, Wa.

**Personal and career goals:**

My personal and career goals are to obtain a masters Degree in Psychology and apply for Officers Training School.

**Why is serving in the Air Force important to you?**

I have the distinct opportunity to serve my country. Also, I am continuing my family tradition of serving in the Armed Forces because my dad is in the Navy. I want to travel to different places, meet new people and explore different cultures. I want to continue my education. The security and stability appeals to me because I am in control of how far I want to go in my Air Force career.

**What new idea(s) would you implement base-wide to help prevent drinking and driving?**

First, zero tolerance! Serving in the United States

Air Force requires discipline, maturity and responsibility. Drinking and driving does not uphold any of these values. Second, give people chances to win prizes for volunteering as designated drivers during the holidays and year round. Also, implement a policy where alcohol is not sold after a certain time on base.

**Core value portrayed: "Excellence in all we do."** Airman 1st Class Abueg always has a smile on her face and makes our clients feel welcome when they come into the legal office. Many active duty members and their families have serious legal concerns. Her great attitude puts our clients at ease and lets them know that our staff is proud to be providing legal services for them. She works very hard in ensuring our clients' documents are flawless and constantly looks for ways to improve processes in our legal assistance reception area.

– Lt. Col. Gary F. Spencer

49th Fighter Wing Staff Judge Advocate

The Holloman Hero submission form is now online.

It can be downloaded at: [https://](https://www.mil.holloman.af.mil/wing/49FW_PA/internal.html)

[www.mil.holloman.af.mil/wing/49FW\\_PA/internal.html](https://www.mil.holloman.af.mil/wing/49FW_PA/internal.html)

The 49th Security Forces Squadron handled the following incidents June 24 to June 29.

### Tickets

Security forces issued a total of 29 citations this week: one for no insurance, nine for failure to stop, one for operating a motorcycle without a traffic reflective vest, one for restricted use of access way, one for failure to have a noise reducing muffler, one for failure to wear a safety belt, four for loud music emitting from the vehicle, one for no driver's license, one for no registration, one for inattentive driving, three for expired registration, two for speeding one to 10 mph over the posted speed limit, two for speeding 11 to 15 mph over the posted speed limit, and one for speeding 19 mph and over.

### Theft or damage to government and private property

- June 25: An airman reported over 115 Compact Discs stolen from his unsecured private-owned vehicle. The estimated cost of the stolen CDs is more than \$2,000.
- June 25: An NCO and an airman re-

ported over \$100 stolen from their unsecured lockers at their squadron.

- June 26: An NCO reported damage to a government-owned vehicle parked at building 273.

### Patrol response

- June 24: A family member reported animal neglect at her neighbor's residence.

- June 26: An NCO was charged with Article 111, Drunken Driving and was advised of his Article 31 rights after he blew a .13/.14 on a breathalyzer test. He was issued a citation for failure to wear a seat belt, issued a base suspension of driving privileges letter and given a state notice of revocation.

- June 29: An NCO and his wife were advised of their rights under Article 128, assault.

### Lost and found

- One BMX style bicycle
- One youth BMX style bicycle
- One mountain bicycle

You must be able to give a more detailed description of the item in question. If you believe any of the items listed are yours, call 572-7177.

If you know of or have any information concerning any of these incidents, please contact security forces at 572-7171 or your first sergeant. For the Crime Stop Help Line, please contact security forces at 572-1100 or dial "911".

## Off we go ...

"Do I really need to tell you why I pulled you over?"

Graphic by Staff Sgt. Kenneth Lustig

## Independence celebration

Independence and Customer Appreciation Day is noon to 8:30 p.m., Saturday at the Fitness and Sports Center. Fireworks begin at 9 p.m. Live entertainment includes the country western band, Rough Stock and the alternative rock band, Barkin Weasel.

## HESO

The Holloman Enlisted Spouses Organization meets at 6 p.m., the second Tuesday of the month, in the Community Center.

## Red Cross

The Red Cross schedule events is as follows:

- Child, Infant CPR, 1 p.m. to 4 p.m., Tuesday in Alamogordo.
- Babysitting Class, 9 a.m. to 5 p.m., July 11 in Alamogordo.
- Community First Aid and Safety, 9 a.m. to 5 p.m., July 12 in Alamogordo.
- Babysitting Class, 9 a.m. to 5 p.m., July 18 at the Holloman Community Center.

For more information, call the Holloman Red Cross at 572-7066.

## Denver getaway

Outdoor Recreation is offering a trip to the zoo and Six Flags amusement park in Denver, Colo., July 11 to 13; sign up by Monday, and August 8 to 10; sign up by August 4. Cost starts at \$120 and includes transportation, hotel and tickets to the zoo and park. Family rates are available. For details call 572-5369.

## Summer of the Airman

The Airman's Advisory Council will be hosting the following events:

Airman's barbecue from 2 to 8 p.m., July 19, at Steinhoff Park behind the Officer's Club. Free food and non-alcoholic drinks will be served.

Jazz night from 7 p.m. to midnight, Aug 16, at the Enlisted Club. A Cajun-style buffet will be served. Organized designated driver program will be available for the night.

## Change of command

There is a 49th Civil Engineer Squadron Change of Command at 9 a.m., July 16 in the building 55 parking lot.

## On the BIG SCREEN

### Daddy Day Care

7 p.m., Thursday

### The In-laws

7 and 10 p.m., Saturday

### Bruce Almighty

7 p.m., Sunday

Movies are subject to change.

For more information, call 572-3286.

## And the scholarship goes to ...

**Peggy Beauvais (left) and Cindy Holder read the names of eight enlisted spouses who will receive a scholarship from New Mexico State University at Alamogordo to obtain a certificate in basic office skills. The eight spouses chosen were: Ana Connors, Teresa Mayfield, Omaira Martinez, Cathleena Bernal, Hilaria Nunag, Tammy Mahoney, Amie Brinn and Patricia Knee.**

## Skills Development Center

The Skills Development Center is offering two new classes. The first is a "Dream Catcher" class at 1 p.m., July 11. The second is a "Handmade Clay Flower" class 1 p.m., July 17. Cost is \$5 plus supplies for each class. Call 572-3760 to sign up. Register for all classes at least 24 hours in advance.

## Munitions storage closing

The munitions storage area will be

closed July 14 to 18 for a 100 percent inventory and MASO change over. Only emergency requests approved by the Maintenance Group Commander will be honored during the inventory. For more information call Munitions Operations at 572-1612 or 572-1613.

## Drivers improvement class

The Drivers Improvement Program class will be rescheduled from the first Wednesday and Thursday of the month

to the third Wednesday and Thursday of the month. The class will be held from 7:30 a.m. to 11:30 a.m., July 16 and 17 in room 226 in building 224, the Education Office.

## FSC

The Family Support Center offers the following classes and events at the FSC, building 40:

Spouse Employment Workshop, 12:30 p.m., Monday.

Sponsor Training, 9 to 10:30 a.m., Wednesday. Call the FSC to reserve a spot.

Spouse Information Day, 9:15 a.m. to 2:30 p.m., Thursday.

Key Spouse Orientation Training, 6 to 8 p.m., Thursday.

For more information, contact the FSC at 572-7754 or visit the website at [www.mil.holloman.af.mil/sptg/mss/fsc](http://www.mil.holloman.af.mil/sptg/mss/fsc).

## Watering schedule

The watering schedule is as follows:

- Odd numbered houses water Sundays and Wednesdays between 5 and 9 a.m. or between 5 and 9 p.m.
- Even numbered houses water Saturdays and Tuesdays between 5 and 9 a.m. or between 5 and 9 p.m.
- Water newly seeded areas daily (kept moist) until the first mowing.
- Water flowers in beds, pots, or other containers by hand as needed.

## Scuba diving course

Outdoor Recreation is offering a Scuba Diving course at 5 p.m., Aug 4 to 27. Cost is \$279 and includes equipment, course, instruction fee, and graduation trip to Balmorhea Lake, Texas. Patrons 18 years and older can sign up with Outdoor Recreation by July 15. A \$50 deposit is due at registration. For more information call Matthew Garcia at 572-5369.

## Members First Dollar Day

Club members can eat breakfast at the Oasis Enlisted Club from 6 to 8 a.m., July 16 for only one dollar.

## Disney/Universal California getaway

Outdoor Recreation is offering a Disney/Universal Studios California Getaway July 18 to 21. Cost is \$185 for adults with family rates available. Cost includes' transportation and admission to Universal Studios and Disneyland. To sign up, call Outdoor Recreation at 572-5369.

## Sunburst correction

The Holloman Hero for June 27 was Senior Airman Jackson Barroso, 49th Maintenance Operations Squadron.
